

Enable Ventures is a market rate Impact Venture Fund with the mission to close the disability wealth gap by investing in and scaling early-stage companies that leverage **disability as an asset** and unleash untapped economic potential through products and services powered by **universal design**.

What's the problem?

Nearly two-thirds of the world's working age people with disabilities are not employed ¹

50%

of those living in long-term poverty in the US ²

<1%

of all microfinance recipients worldwide ³

~\$1.9tn

annual loss to Global GDP due to social exclusion of people with disabilities in the workplace ⁴

Market Tailwinds

Right now, for the first time in history, there is a confluence of social awareness, enough capital in the system earmarked for disability advancement, and rapidly advancing technology innovation that makes this moment the ideal time to pursue this deeply underserved billion-person + market.

The Enable Advantage

Mission-Driven Impact

Enable Ventures targets market-rate investments with a double bottom line that drive profit and purpose in the historically underserved global disability community

Trusted Disability Partner

Long history and deep connections in the disability community, working with allies that span the lived experience of disability; powerful insight into the disability market and preferences of the community

Differentiated Access to Deals

Inbound deal flow through our networks in the disability community, DAF pipeline, accelerator relationships, and access through the Sorenson network

Value Add as Impact Lead

Expertise in the regulatory, legal, and political systems that govern the economic realities of the lives of people with disabilities

Regina Kline
Founder + Managing Partner
 Investor,
 Widely Recognized Civil Rights/
 Disability Rights Lawyer,
 & Thought Leader

- One of the earliest players in the global disability technology ecosystem to advise, coordinate, and invest in companies through an impact investing lens
- Sought and secured backing from Jim Sorenson/ Sorenson Impact to launch Enable Ventures, and has since sourced, led, and supported Seed through Series A investments across the spectrum of disability in a portfolio that includes digital SaaS, consumer-facing neurotechnology solutions, and wide-ranging applications of AI
- Four years ago, founded SmartJob, LLC, the world's first impact investing platform singularly dedicated to closing the disability wealth gap by investing in ecosystem building and evergreen impact opportunities; through SmartJob's advisory to DAF capital, built an investment strategy and portfolio in the early-stage disability technology market

- Created and convened the Global Disability Accelerator Initiative, backed by Clinton Global Initiative ("CGI"); partnered with 10 disability technology accelerator programs in 6 countries, and leads the initiative to further collaboration, support, and build capacity within the programs; the network produces approximately 220 disability technology companies per year and growing
- Nationally known for her legal and policy work in advancing the rights of people with disabilities
- Served in the Obama Administration as Senior Counsel to the Assistant Attorney General for Civil Rights at the USDOJ
- Provided public testimony in front of federal and state government entities and commissions, and has advised public and private leaders and organizations on disability employment
- Successfully litigated landmark ADA cases that ensured the rights of individuals with disabilities to work in competitive and meaningful employment
- Litigation resulted in moving over 11,000 individuals out of separate, unequal, exploitive working conditions, with ripple effects impacting employment opportunities for millions of Americans with disabilities
- Author of multiple government reports and evaluations on US disability employment system
- Launched national disability consulting practice
- Helped launch a leading national anti-poverty non-profit, now 23 years old; co-founder of non-profit, tackling child & family homelessness, now 20 years old

Charlotte Magee
Principal
 Impact Investing Experience
 Neuroscience PhD

- Early-stage investor with a PhD in neuroscience
- Passionate about technologies and businesses that elevate people's quality of life
- Prior to Enable, Principal at the Joan and Tim Fenton Founders Fund and also served as Manager of Venture Capital & Impact Investing at Sorenson Impact Institute
- Crafted and executed investment strategies, managed portfolio operations, and played a pivotal role in every stage of the investment process from sourcing to negotiation, closure, and portfolio support with a track record of leading or supporting market rate impact investments
- Pre-seed to Series A portfolio spans B2B SaaS to groundbreaking neurotechnology solutions to disability-focused workforce skilling products
- Received her PhD in neuroscience from the University of Utah

Margaret Knowles
Vice President
 Social Enterprise Startup Experience
 Diligence and Impact Measurement
 Columbia MBA

- Early-stage impact investor
- Worked with Regina Kline through SmartJob to support investments into early-stage disability technology companies and to develop the disability innovation ecosystem
- Deep operational and financial experience from her background in Social Enterprise startups, with a focus on workforce development in underrepresented populations
- Employee #1 at successful startup focused on workforce development and economic participation in emerging markets
- Practiced in building deal pipelines and performing due diligence on impact-focused enterprises, as well as monitoring and measuring impact
- Received her MBA with honors from Columbia Business School, with a specific focus on Impact Investing, Early-Stage Investment, and Social Entrepreneurship Experience in and enthusiasm for building and growing early-stage companies
